CURVE YOUR WAY

At EzyRoller, we don't just make ride-ons: we craft experiences. Imagine gliding effortlessly, powered by the sway of your feet. Our products cater to all ages—from the **Mini** for toddlers to the **Drifter Pro X** for adrenaline-hungry teens and adults. Feeling adventurous?

The **Spinner X** twists your ride into a 360-degree spin of joy, while the **Drifter X** takes curves like a dream. And when it's time to accessorize, we've got everything from **hockey sets** to **snow kits**.

ENDLESS PLAY POSSIBILITIES!

The EzyRoller is a multi-award winning toy. It's built to last and take the knocks. It's stable, safe and confidence inspiring. Perfect for those looking for an alternative to the bike or scooter.

Watch your child's imagination soar as they invent all sorts of things to do with their free hands – towing other wheelies, chucking balls to one another, chalking the pavement. EzyRoller is truly a celebration of liberated imagination and the play possibilities are endless.

In seconds you're away, sweeping and swerving, darting and ducking, carving turns up and down the asphalt. Whether you're a fast and furious racer, a smooth cruiser or an artful dodger, it's dead easy and you're addicted in seconds. As are the onlookers – heads turn and kids crowd round to have their go.

DRIFTER PRO

AGE 10+

Leave your friends in the dust! With its new X-Series seat, accessories and drifting mechanism, the Drifter Pro is quick and crazy comfortable. Will you curve, dunk or race? Set your sights high and curve any way you want.

PRODUCT DIMENSIONS

Length : 37" to 46"
(930 to 1180mm; one extension provided.)
Width : 27" (680mm)
Height : 23" (590mm)
Weight : 18 lbs (8.2 kg)

This machine is for EzyRolling Superstars! We have combined our award winning Drifter model with our larger adult Pro model to create the ultimate Drifter Pro X.

AVAILABLE COLOURS

With a wider seat and extended frame, the Spinner Pro X is made for teens and adults who want more from every ride. Growing up doesn't mean giving up the spotlight — it just means owning it differently. Same spin. More room to play. Roll in together. Spin like you never left.

Built for Fun, Built to Last

At EzyRoller, sustainability is a core value. Our ride-ons are made with 90% steel, ensuring they're tough enough to withstand years of play and adventure. We've crafted each EzyRoller with durability and longevity in mind, so they can be passed down from sibling to sibling, and even across generations.

What sets us apart? We carry spare parts for every model we've ever made, so you can easily replace worn components instead of discarding the whole ride. This not only saves you money but also significantly reduces waste.

By extending the lifecycle of each EzyRoller, we empower our riders to make eco-conscious choices without compromising on fun. Our commitment to sustainability means that every EzyRoller is more than just a ride-on—it's a responsible choice for a greener planet, one glide at a time.
